EDUCATION

National Higher School of Advanced Technologies (ENSTA Algeria) *Algiers, Algeria*

Preparatory Cycle in Computer Science Engineering (2nd Year)

Baccalaureate in Experimental Sciences: 17.68 / 20 (Admission based on national Baccalaureate results)

ACADEMIC OBJECTIVE

Motivated to specialize in Cybersecurity with a strong interest in operating systems, memory management, reverse engineering, binary exploitation, malware analysis, digital forensics, and threat hunting. I deliberately focus on mastering Linux internals and low-level programming before moving into advanced security topics, believing that deep systems knowledge is the foundation of effective cybersecurity.

TECHNICAL SKILLS

- Operating Systems: Fedora Linux (daily driver), Ubuntu, Kali Linux
- Virtualization: VirtualBox, Metasploitable 2/3
- Programming: C, JavaScript, HTML, CSS, Bash, Basic Assembly
- Systems: Bash automation (~30 scripts), systemd, cron, iptables, networking fundamentals

PROJECTS

Personal Portfolio Website

- Designed and developed a responsive portfolio website using HTML, CSS, and JavaScript
- Applied clean code structure and responsive design principles
- Built to showcase future technical projects and professional growth

LEADERSHIP & ACTIVITIES

- Graphic Designer and Media/Photography Team Member in university clubs
